DETAILED ACTION

Claim Objections

1. Claims 20-25 are objected to because of the following informalities: The claims have to address the preamble to either the subcombination the brush, or the combination of the brush and the case in an independent claim for the combination. Appropriate correction is required.

Election/Restrictions

2. This application contains claims directed to the following patentably distinct species:

Species I, drawn to Figures 1a, 2a-2c.

Species II, drawn to Figure 1b.

Species III, drawn to Figures 3a-3c.

Species IV, drawn to Figure 4a.

Species V, drawn to Figures 5a-5c.

Species VI, drawn to Figure 6.

Species VII, drawn to Figure 7a.

Species VIII, drawn to Figure 7b.

3. The species are independent or distinct because the sheaf is located at different inclinations.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election. Currently, claims 1, 2, 5, 14-17, and 19 are generic.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
